CMSE-PUNE 2009

Dear Friends,

Welcome to the **Continued Medico - Spiritual Education (CMSE)** to be held in Pune on 8th & 9th August 2009. We present you with an opportunity for more exposure to the practice of Integrative, holistic approach to health care and disease treatment. In India, the philosophy of body-mind-soul has been practiced and recorded in all time zones of history. More emphasis on "saunskara" and body-mind faculty development has been the foundation of good life, healthy living.

Life style modification have been the first line of treatment in disease management; supported with techniques from Yog, Pranayama, Meditation, nutrition and natural therapies inclusive of herbal medicines and tonics.

This philosophy has found relevance across the globe in patient management and practitioners, students and researchers look towards these holistic philosophies to close the gap between the present medicine approach and the need of a viable holistic approach that has stood the test of time.

New Age Doctors' Association (NADA) carries a vision to transform the existing health practices into a holistic model wherein all the aspects of health like the psychological, emotional and spiritual well being are given due importance.

The main objective of NADA is to create awareness not only among the healthcare practitioners but also among the general masses regarding the value of prevention, life style changes, role of thoughts, emotions and belief systems on the cause and cure of the disease and suffering.

We from New Age Doctors' Association (NADA), Maharashtra branch are organizing a two-day convention called as **CMSE-PUNE 2009 on 8th & 9th August 2009**.

Eminent speakers from around India will grace and expose their expertise in the above mentioned subjects. The lectures are distributed in the two days with many opportunities of audience interaction with the speakers who will share a common dais after their lectures.
