

## **What a Council Member of THE WORLD UNITED is supposed to understand?**

### **Why a council is required?**

For Global Spiritual Awakening, a large number of spiritual beings are required from a regional level to a global level to awaken the humankind from spiritual slumber

**Aim:** To awaken the Unconditional Unity Consciousness in the humankind

### **How it can be done?**

Convergence of energy of several spiritual beings of the world who can take up leadership in the areas of their expertise

### **If we all are doing it already, why a Global Council for Unity consciousness is needed?**

All our individual activities from the places of stay and travel have existed since many years but for the size of 7.5 billion people, collective activity for a massive awakening seems to be required, as building unity seems to be very important than uniformity and to bring a massive unity consciousness apart from our individual activity, there seems to be a need to have some collective activity as well

### **As a part of collective activity a 1000 day plan is proposed as a top priority to begin with**

#### ***For 2020***

Formation of Global Council of 18 members – 3 from each continent, who in turn will form 18 member continent wise councils and who in turn will form 9 member nation wise councils – Apart from that, an 18 member council as per the wings of TWU formed as per the themes showcased in WPS is also need to be initiated - <https://theworldunited.org/wings>

#### ***For 2021***

These continent and nation wise councils will take up a 3 day online event on Unity Consciousness in 2021 inviting a minimum of 50 speakers and involving as many participants as is possible in each country and no country will be left untouched -- Apart from that a 9 member council as per the wings of TWU formed as per the themes showcased in WPS is also need to be initiate

***For 2022***

The activity will expand to a state or provincial level and form 9 member councils as per the country

***For 2023***

Awakening is aimed thru unity at a grass root level both by pure and applied spiritual aspects

***For 2024***

A grand WPS-4 as a physical summit and at the same time an online one for those who cannot participate in person can be manifested with as many pre-parliaments across the world as possible

**Final Outcome**

If we can hold the energy for 1000 days, collectively we can manifest a real grand spiritual awakening really needed for the world and for which we all are born assisting each other as a part of evolution of human consciousness
